## My Qur'an organiser

My Qur'an Organiser has been designed to allow you to print as many pages as you choose at a time – making it ideal to add to a ring binder.

You can of course, print multiple pages at once and spiral bind to make a book if you prefer.

There are 3 main parts to the organiser:

1. **Virtues of the Qur'an;** Use this page to write the many virtues mentioned in the Qur'an and Sunnah regarding the Qur'an. The benefit of this is to help the child to understand why the Qur'an is so important and increase their love for learning it through realising its virtues.
2. **My daily Qur'an schedule;** Use this page to record what ayat / suwah to revise each day, what new memorisation to complete or has been done and what to read as reading practise.
3. **Tafseer and benefits;** Use this page to write out the translated meaning of each ayah together with a short brief explanation of its tafseer and any benefits which can be learnt and implemented.

**Printing instructions: The file has been designed to allow borderless printing – just check the “print borderless” box in your printer settings before printing.**

# My Qur'an Organiser
